CAREER OBJECTIVE

Aspiring Software Developer with strong knowledge in Java, OOP concepts, and Data Structures & Algorithms. Experienced in developing full-stack applications using Spring Boot, React, and MySQL. Demonstrates strong problem-solving ability through consistent DSA practice and real-world project development. Eager to contribute to scalable and efficient software solutions.

EDUCATION

P.S.R. Engineering College <i>Bachelor of Engineering – Computer Science and Engineering (Percentage: 80%)</i>	Sivakasi, Tamil Nadu 2023 – 2027
P.A.C.R. Ammani Ammal's Girls' Higher Secondary School <i>Higher Secondary Education (Percentage: 85%)</i>	Rajapalayam, Tamil Nadu 2016 – 2023

INTERNSHIPS

NSIC Technical Service Centre <i>Web Development Intern</i>	Chennai, Tamil Nadu June 2025 – July 2025
- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, enhancing user experience. - Implemented front-end features, optimizing load times by 15% through efficient code structure. - Collaborated with senior developers on API integration for dynamic content delivery and gained practical experience with version control systems like Git.	
Anjana InfoTech <i>Data Analytics Intern</i>	Rajapalayam, Tamil Nadu Nov. 2025 – Dec. 2025
- Engineered data transformation pipelines using Python and SQL to clean, filter, and structure raw business operational data. - Built comprehensive data visualization dashboards to surface key metrics, accelerating internal reporting efficiency.	

PROJECTS

Job & Internship Application Platform	2024
- Developed using React.js and Spring Boot. Implemented JWT-based authentication and role-based access control. - Designed REST APIs for job posting and application management. Integrated MySQL database for secure data handling. - Added resume upload and job tracking features.	
Cyberbullying & Spam Detection System	2026
- Built an ML-based application to identify cyberbullying and spam content using NLP techniques. - Improved harmful message detection through text classification and preprocessing.	
NutriPack – Smart Sustainable Food Packaging (MSME Innovation Project)	2025
- Designed biodegradable food packaging using natural waste materials and sustainable processing methods. - Proposed low-cost rural-friendly packaging solution with environmental benefits.	

SKILLS

Technical Skills : Java, SQL, UI/UX, Web Development, Groovy, JavaScript, Data Analytics, Python, HTML/CSS
Soft Skills : Problem Solving, Communication, Time Management
Languages : English, Tamil

ACHIEVEMENTS

Mepco Engineering College

Sivakasi, Tamil Nadu

Takker Trivia – Second Prize

- Orchestrated a successful inter-college trivia event, Takker Trivia, engaging over 100 participants; secured Second prize and a Cash award alongside team members.
- Managed all aspects from question curation and event promotion to logistics and scoring, ensuring a seamless experience.

CERTIFICATIONS

- Oracle OCI 2025 Certified Generative AI Professional, OCI 2025 Certified Developer Professional, Oracle Analytics Cloud 2025 Certified Professional (Sept. 2025).
- NPTEL – Elite Certification in Cloud Computing (June – Oct. 2025).
- UI/UX Course Certificate at NoviTech R&D Private Limited (July – Aug. 2025).
- Microsoft & LinkedIn Learning – Career Essentials in Generative AI, Learning Data Analytics Foundation, Learning Groovy, Learning SQL Programming.
- Infosys – Introduction to Data Science.
